

Electrical locking device Model ELD V.3

Type of driver: Electrical motor-reducer
Power supply, V DC: 9-28
Operational current (standard operation),mA: 700
Pulling force, max., N: 300
Pin diameter, mm.: 18
Pin stroke, mm.: 5-55
Environment humidity, %: 100 (completely sealed with silicone compound).
Operational temperature, °C: -30 ___+65
Resistance burglary: up to 13000 N
